

THE DODGE CITY TIMES.

DODGE CITY, SATURDAY, JUNE 1, 1878.

The Kinsley Hotel is deservedly popular with the commercial tourists and the traveling public generally.

Freight is carried from Atchison to Concordia, by the Central Branch Railroad, at 30 cents per hundred, regardless of classification.

Nearly one hundred cows have died at Wyandotte this spring from eating white clover. Forty cows in Leavenworth have died with "clover colic."

Four lunatics whose names the Graphic was unable to learn, launched a row boat at the bridge, at Kinsley, last week, destined as they said for Little Rock, Ark.

Railstones five inches in diameter fell in Great Bend some days ago. In making this statement the Tribune leaves room for questionable veracity.

Birds are flocking into this beautiful valley. The editor of the Kinsley Graphic says: We notice several old fashioned blond headed wood peckers, flying and squalling around during the past few days.

A Colorado firm of Colfax, in the Wet Mountain Valley, have completed their distillery for the manufacture of whisky from potatoes. Where next will they find the evil spirit?

In Cowley county there are seventy five thousand acres of wheat, and it is now being cut. The expected average is twenty bushels. This will be a million and a half bushels of wheat.

Sandhill lions have been seen in town for several nights past, and the school children are terribly worked up on the subject. —[Great Bend Tribune.

Ain't you a lion?

We imagine just a slight suspicion of sarcasm in the Dodge City Times' notice of our "extensive stock yards." One hundred and twenty feet beats nothing, brother Klaine. —[Kinsley Graphic.

No sarcasm meant. Wish you had a larger yard.

The steady and rapid increase of our trade with Germany is shown by the fact that of the total imports at Bremen last year one-half were American. Breadstuffs and provisions, of course, go a great way in making up the total; but the greatest increase is in manufactured goods, which were formerly bought in England.

A real, old fashioned, red head, Missouri woodpecker came to town this week. He lit on the comb of a house and screamed and rattled with delight. Everybody went to welcome him. If the woodpeckers leave Missouri for Kansas, what will she have left worth living for? —[Great Bend Tribune.

He was glad to leave there. Missouri will have plenty of rats left.

Prof. Teats left for the East last Wednesday. How he escaped the clutches of our girls we cannot explain. —[Oswego Independent.

It's the boys who are after the Professor in this town. —[Burlington Independent.

This reminds us. It was Anna Dickinson who once said she was going to "give tit for tat." A wicked newspaper thereupon said: "Here's your tat." Tit, tat; such nonsense.

The Barbour County Mail is a new paper the first number of which was issued last week at Medicine Lodge, by M. J. Cochran. It is a well gotten up and spicy local journal. It says of Attorney Sutton:

The genial and accomplished lawyer, M. W. Sutton, looked in upon us last Friday. Mike has a host of friends in Barbour and is deservedly popular. In his official career as County Attorney of Ford county, he has given constant satisfaction and has also discharged the duties of the office. Mike deserves promotion, and it will come as surely as the "Eternal years roll on."

A Sure and Safe Remedy for Small Pox.

[Correspondence Stockton Herald.]

I herewith append a receipt which has been used, to my knowledge, in hundreds of cases. It will prevent or cure the small pox though the pittings are filling. When Jenner discovered cow pox in England the world of science hailed an avalanche of fame upon his head; but when the most scientific school of medicine in the world (that of Paris) published this receipt, as a panacea for small pox, it passed unheeded. It is as unfailing as fate, and conquers in every instance. It is harmless when taken by a well person. It will also cure scarlet fever, to cure the small pox, when learned physicians said the patient must die, it cured: Sulphate of zinc, one grain; digitalis (fox glove), one grain; sugar, half a teaspoonful. Mix with two tablespoonfuls of water. After thoroughly mixed, add four ounces of water. Take a tablespoonful every hour. For children smaller doses according to age. Either disease will disappear in twelve hours. If you value advice and experience use this for these terrible diseases.

CAMP SUPPLY.

CAMP SUPPLY, I. T., May 26, 1878.

To the Editors of the Times.

We have had some fine rains during the past week and now all nature smiles.

The Paymaster Major Broadhead arrived at this post on Tuesday last on his return from Ft. Elliott and left for Dodge City Wednesday.

Mr. Lloyd Shinn also returned to the post from Elliott on Wednesday last. After a night at Steward Kitchen's wooden wedding departed for Dodge on Thursday morning. Mr. Shinn made many friends while here and added quite a number of names to his subscription list for Times.

Three men of E Co 19th Inf of the new issue started out on a hunt on Saturday night—hunt for a job—having dissolved their part of the contract with Uncle Sam. They have gone to meet the Army Bill. A posse under Amos Chaplin chief of the post scouts started out after them. It is thought owing to the late rains that they will be taken and brought back.

Bark of the post garden has gone to Fort Elliott on a furlough to look after a position to plant his stakes at the expiration of his term of service.

Mr. Petrie gave another entertainment on his way back from Fort Elliott which was about as near a sell as he could conveniently get, as he had promised an entire change of programme which he failed to do—the same old thing over. There has been a party of men at this post looking after positions to locate new mail routes. They are on a tour of the southwest.

We learn here that a tri-weekly mail will be granted from Dodge City to Elliott after July 1st next, and the new contractors will open with three mails per week. That will make our people happy.

Mrs. Redcliff departed for the North last week. Her many friends here will miss her pleasant society and entertaining conversation.

The witnesses in the Gibbs homicide case will depart for Fort Smith, Ark. sometime in June, in view of appearing before the U. S. District Court in the latter part of that month.

We are all anxiously awaiting the action of congress on the Army appropriation and reorganization bill. MEJUDICE.

A Boarding House Yell.

There is a boarding house.
Not far away,
Where they have onion hash
Three times a day.
Oh, how the boarders yell,
When they hear the dinner bell,
Oh how the onions smell,
Three times a day.

PROPOSALS FOR HAY AND OATS.

Office Chief Quartermaster,

Fort Leavenworth, Kansas, May 5, 1878.

SEALED proposals in triplicate will be received at this office and at the offices of the Post Quartermasters at each post named below, until 11 o'clock A. M. Leavenworth time, on Saturday, June 15, 1878, for the delivery during the fiscal year, commencing July 1, 1878, of Hay at Fort Elliott, Texas; Camp Supply and Fort Gibson, Reno, and Sill, I. T.; and Fort Leavenworth and Wallace, Kansas. Also at the same time, at this office only, for oats at Dodge City or Newton, Junction City or Fort Riley Station, and Fort Leavenworth, Kansas, and Fort Reno and Sill, Indian Territory.

Bids will be received for any portion of the supplies. Preference will be given to articles of domestic production. The Government reserves the right to reject any or all bids. The proposals will be opened in the presence of bidders, and will be subject to conditions printed thereon, and specified in circulars, which will be furnished on application, from this office. These circulars will give full particulars.

Envelopes containing proposals should be plainly marked "Proposals for Hay or Oats at—" and addressed to the undersigned or of the Post Quartermasters of the post named above.

Still's Improved Malleable

Iron SaddleTree Fork

PREMIUM AT THE STATE FAIR

\$10 Reward to Any Man Who Will
Break this Fork by Roping.

The advantages of this valuable improvement consist in dispensing with the wooden fork usually used, and substituting malleable iron of great strength and utility. We guarantee the strength of this fork to be greater than that of wood, and in all cases where they fail to stand a fair test the purchase money will be refunded or a wooden fork substituted. For further particulars apply to H. C. STILL & SONS, Austin, Texas. Refer to J. W. and W. W. Driskill, of Dodge City, who are using our forks. m12-2m
